Our products meet increasing performance standards, which demand high quality materials. Our advanced extrusion lines utilize the most modern systems and process controls available to date.

Our Quality Assurance Department is dedicated to ensuring that all products conform to strict quality standards set by UL, NEMA, ASTM, and IEEE.

Customer Service at Performance Wire and Cable is geared for speed and responsiveness. Professionally qualified and experienced personnel meet the daily challenge of quick quotes, processing, and shipping. Most orders ship in 1 week depending on construction.
